WARNING: This product can expose you to chemicals including lead, which is known to the State of California to cause cancer and birth defects or other reproductive harm. For more information go to www.P65Warnings.ca.gov.

Ball Drip

An automatic ball drip is available for NIBCO Underwriter’s check valves. The ball drip is installed at boss location “C” on the check valve of the fire department connection. It will close against pressure, but will open when pressure is off allowing water to drain from the fire department connection.

¹⁄₄” Ball Drip # RG 22000
90° Street Elbow #T046212 PP
