

GET IT HANDLED INNOVATION ON US

NIBCO
585HP
HIGH PERFORMANCE BALL VALVE

CONTRACTORS' PROMOTION

Contractors! Have you ever found yourself in a tight spot on the job? The new 585HP ball valves from NIBCO are loaded with many innovative features to help you save time and money! We took our standard 585 and upgraded it with a patent-pending top works including reversible handle, triple-sealed stem, and large accessible pack nut. The patented laser-welded body features high structural integrity with maximum performance. This one valve can handle it all! It can handle high pressure applications, it can handle tough installations and when you're in a tight space, just reverse the handle by moving the stop pin and BAM... you're done! Try innovation on us—for a limited time, **upgrade to the new 585HP at the same price of the standard 585-80-LF series.**

Promotion Period: January 1, 2021 through December 31, 2021

Promotion Details: During the promotional period, upgrade to the innovative 585HP ball valve at the same price of the standard 585-80-LF series ball valve. The new lead-free 585 High Performance Ball Valve by NIBCO is on the cutting edge of manufacturing technology, ease of installation, and highest quality standards. We guarantee the quality and workmanship with a new 10-year warranty! Contact your NIBCO distributor and place your order today!
