

NIBCO® FLO-BOSS™

With the FLO-BOSS™ line of balancing valves – including automatic, manual, lead-free,* and now press ends – NIBCO continues to demonstrate why we're the most reliable name in flow control.

Along with NIBCO® Coil-Connect® kits, you'll find FLO-BOSS products are the right fit for a wide range of balancing applications.

When every detail matters, choose FLO-BOSS balancing valves from the leader in flow control reliability.

FLO-BOSS™

- Large selection of manual and automatic balancing valves, with NEW press ends options
- Low flow rate capabilities (to .24 GPM)
- Lead-free balancing valves certified to NSF/ANSI 61 and 372
- Large selection of cast iron valves
- An extensive line of accessory items, including hoses, air vents, and extensions
- Coil-Connect® Kits in ½" to 2" sizes available with threaded, solder, and press ends

*Weighted average lead content ≤ 0.25%
